Jerry Thigpen's study on the history of the combat talon is the first effort to tell the story of this wonderfully capable machine. This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C-130 derivative ever produced. First modified and sent to Southeast Asia in 1966 to replace theater unconventional warfare assets that were limited in both lift capability and speed, the talon quickly adapted to theater tasks including infiltration and resupply and psychological warfare operations into North Vietnam after spending four years in sea and maturing into a highly respected UW weapons system. The Joint Chief of Staff JCS chose the combat talon to lead the night low level raid on the North Vietnamese prison camp at Son Tay. Despite the outcome of the operation, the talon cemented its reputation as the weapons system of choice for long range clandestine operations. In the period following the Vietnam War, United States Air Force USAF Special Operations gradually lost its political and financial support, which was graphically demonstrated in the failed Desert One mission into Iran. Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia, funds for aircraft upgrades and military construction projects materialized to meet the ever increasing threat to our nation. Under the leadership of such committed, hard-driven officers as Brenti Uttaro, Ferkes Meller, and Thigpen, the crew force became the most disciplined in our Air Force. It was capable of penetrating hostile airspace at night in a low level mountainous environment covertly to execute any number of unconventional warfare missions.

Faith in the Fight tells a story of religion, soldiering, suffering, and death in the Great War, recovering the thoughts and experiences of American troops, nurses, and aid workers through their letters, diaries, and memoirs. Jonathan Ebel describes how religion, primarily Christianity, encouraged these young men and women to fight and die, sustained them through war's chaos, and shaped their responses to the war's aftermath. The book reveals the surprising frequency with which Americans who fought viewed the war as a religious challenge that could lead to individual and national redemption. Believing in a Christianity of the sword, these Americans responded to the war by reasserting their religious faith and proclaiming America God-chosen and righteous in its mission. And while the war sometimes challenged these beliefs, it did not fundamentally alter them. Revising the conventional view that the war was universally disillusioning, *Faith in the Fight* argues that the war, in fact, strengthened the religious beliefs of the Americans who fought and that it helped spark a religiously charged revival of many prewar orthodoxies during a postwar period marked by race riots, labor wars, communist witch hunts, and gender struggles. For many Americans, Ebel argues, the postwar period was actually one of disillusionment, demonstrating the deep connections between Christianity

and americans experience of the first world war faith in the fight encourages us to examine the religious dimensions of america s wars past and present and to work toward a deeper understanding of religion and violence in american history

the german wehrmacht was one of the most capable fighting forces the world has ever known but in the end it was no match for the allies some historians contend that the allies achieved victory through brute force and material superiority but as peter mansoor argues all of the material produced by us industry was useles without trained soldiers to operate it a coherent doctrine for its use and leaders who could effectively command the formations into which it was organized
