this open access book is about the shaping of international relations in mathematics over the last two hundred years it focusses on institutions and organizations that were created to frame the international dimension of mathematical research today striking evidence of globalized mathematics is provided by countless international meetings and the worldwide repository arxiv the text follows the sinuous path that was taken to reach this state from the long nineteenth century through the two wars to the present day international cooperation in mathematics was well established by 1900 centered in europe the first international mathematical union imu founded in 1920 and disbanded in 1932 reflected above all the

trauma of ww i since 1950 the current imu has played an increasing role in defining mathematical excellence as is shown both in the historical narrative and by analyzing data about the international congresses of mathematicians for each of the three periods discussed interactions are explored between world politics the advancement of scientific infrastructures and the inner evolution of mathematics readers will thus take a new look at the place of mathematics in world culture and how international organizations can make a difference aimed at mathematicians historians of science scientists and the scientifically inclined general public the book will be valuable to anyone interested in the history of science on an international level

as an historiographic monograph this book offers a detailed survey of the professional evolution and significance of an entire discipline devoted to the history of science it provides both an intellectual and a social history of the development of the subject from the first such effort written by the ancient greek author eudemus in the fourth century bc to the founding of the international journal *historia mathematica* by kenneth o may in the early 1970s

at its meeting in april 1990 at the university of cambridge the executive committee of the international mathematical union imu decided that the largely unorganized archives of the union should be properly arranged and catalogued simultaneously the executive committee expressed the wish that a history of the union should be written 1 as secretary of the union i had proposed that these issues be discussed at the cambridge meeting but without having had in mind any personal role in the practical execution of such projects at that time the papers of the imu were stored in zurich at the eidgenössische technische hochschule and i saw no reason why they could not remain there at about this time professor k chandrasekharan produced a handwritten article titled the prehistory of the international mathematical union 2 and it seemed to me that this might serve as the beginning of a more comprehensive history i had first thought that tuulikki makeuinen who during eight years as the office secretary of the imu had become well acquainted with the union would do the arranging of the archives in zurich she had a preliminary look at the material there but it soon became clear that the

amount of work required to bring order to it was too great to be accomplished in a few short visits from helsinki the total volume of material was formidable
