the sweeping story of an ambitious and once powerful southern family

back in the golden age of humor books late 1920s early 1950s when wits of the pantheon like Robert Benchley James Thurber and S. J. Perelman were producing their

signature works there was another singular satirist who more than held his own with such fast company will cuppy 1884 1949 this factual funnyman s metier is dark comedy that flirts with nihilism his agenda is baldly stated in such classic cuppy book titles as how to be a hermit 1929 how to tell your friends from the apes 1931 and the decline and fall of practically everybody 1950 this biography doubles as a critical study of a satirist whose shish kebabing of humanity was often done through the veiled anthropomorphic use of animals for a biographer will cuppy represents a treasure trove of possibilities he was a great humorist and most of his best work is still in print but until now he has never been the subject of a book length study his mesmerizingly complex and eccentric private life almost trumps the comic accomplishments of his public persona

this bio bibliography was designed to present a combined biographical critical and bibliographical portrait of the marx brothers it examines their significance in film comedy in particular and as popular culture figures in general the book is divided into five sections beginning with a biography which explores the public and private sides of the marx brothers the second section is concerned with the influences of the marx brothers as icons of anti establishment comedy as contributors to developments in american comedy as early examples of saturation comedy and as a crucial link between silent films and the talkies three original articles two by groucho and one by gummo comprise part three a bibliographical essay which assesses key reference materials and research collections is followed by two bibliographical checklists appendices containing a chronological biography with a timeline a filmography and a selected discography complete the work
