in the fourth edition of essential criminology authors mark m lanier stuart henry and desiré j m anastasia build upon this best selling critical review of criminology which has become essential reading for students of criminology in the 21st century designed as an alternative to overly comprehensive lengthy and expensive introductory texts essential criminology is as its title implies a concise overview of the field the book guides students through the various definitions of crime and the different ways crime is measured it then covers the major theories of crime from individual level classical and rational choice to biological psychological social learning social control and interactionist perspectives in this latest edition the authors explore the kind of criminology that is needed for the globally interdependent twenty first century with cutting edge updates illustrative real world examples and new study tools for students this text is a necessity for both undergraduate and graduate courses in criminology

this significantly expanded edition of essential criminology covers the broadest range of criminological theories the essential criminological theories from longstanding ones such as classical theory and strain theory to recently introduced ones such as ultra realism and green cultural criminology whether all are essential depends on one's theoretical stance the value of this text is its carefully designed comparative analysis which helps readers consider their relative contribution to the field originally designed as an alternative to lengthy and expensive introductory texts essential criminology provides a concise yet comprehensive overview of the field the book offers a clear structured student friendly critical analytical examination of the nature of crime theories of crime causation and their criminal justice policy implications causal theories covered range from micro level classical and rational choice to biological psychological social learning social control and interactionist perspectives to macro level social ecology anomie strain conflict marxist feminist and postmodernist theories over its 26 year history the book has added new theoretical perspectives as these have gained prominence new to this edition are chapters on critical and ultra realism and critical green criminology and discussions of zemiology critical race theory and quantum

holographic criminology the authors have also expanded some theoretical frameworks that had previously been underdeveloped such as opportunity theory subcultural theory and social constructionism essential criminology contextualizes criminology in the globally interdependent 21st century addressing the crimes of terrorism global pandemics and climate change with its cutting edge updates illustrative real world examples and student friendly study tools including analytically comparable summary charts exposing each theory's ontological assumptions this text was designed primarily for undergraduate criminology courses but has also been adopted by community colleges and graduate programs in criminology sociology and political science

an integrative introduction of criminology continues to offer students a clear contemporary and comprehensive introduction to criminology that encourages critical thinking about the causes of crime and crime prevention strategies the text's hallmark thematic approach of social problems versus social responsibility is crime a matter of individual responsibility or a symptom of a dysfunctional society prompts students to think critically about the causes of crime and helps them see the link between crime theories and crime policies

closing the integration gap in criminology the case for criminal thinking offers a multi stage model of theory integration that organizes verified risk factors around the construct of criminal thinking to provide an exemplar working paradigm for criminology in the model once relevant risk factors have been identified they are organized into triads three variable networks of antecedent mediating or moderating effects and then those triads are combined into clusters of thematically related constructs while debate continues to rage over how to handle the burgeoning number of theories in criminology little significant progress has been made in reducing the number of criminological theories this book argues that theoretical integration is vital to the continued viability of criminological theory and to the growth and development of criminology as a scientific discipline it posits that criminal thinking may be useful as a core variable in constructing a useful integrated theory for criminology and maps out a plan for scholars to organize information for further study the innovative theoretical approach in this book is essential reading for students academics and researchers in both criminology and forensic psychology concerned with the reduction of crime via scientific inquiry

whether criminologists position themselves in the left or right of the field the reality common to their work involves a reconsideration of virtually all of our past theoretical journeys in criminology this book captures the range of criminological thinking today and provides a picture of a dynamic discipline in transition chapters consider contemporary theoretical development and discussion focusing on street crime youth and identity and crime and social control in relation to questions of gender class race learning and culture while there is disagreement among the authors about whether criminologists are developing new theory or circulating old theory their contributions in this reader demonstrate the emerging plurality in criminological discourse revealing continuities and discontinuities between old and new

the essays collected together in this volume explore a development in criminology the emerging paradigm of integrative study the integrative wave covers both mainstream and critical criminologies and is part of a larger and emerging paradigm of interdisciplinarity that transcends east west and north south relations this book is essentially devoted to the value and practice of interdisciplinary criminology the contributions aim to represent the full array of integrative thinking and analysis and are divided into five parts

kabbalah is an ancient jewish wisdom that explains the laws of spiritual energy up until very recently the kabbalah was reserved for the elite those who only after years of scholarship and practice were allowed to enter this mystical realm however one doesnt need to devote ones life to intense study to reap the rich rewards of the kabbalah with just a basic understanding of a few key concepts our lives can be enriched immensely we can then begin to fulfill our deepest dreams and reach our most important goals becoming the people we long to become by learning to understand the sefirot the ten spiritual properties that flow from the cosmic source into our heart we can connect to the universe and profoundly transform our experience of daily life for example hessed or loving kindness represents the desire to be generous while gevurah is the desire to focus intently or withhold these properties must be balanced in order for harmony and well being to occur rabbi laibl wolf shows how to maintain that balance and enjoy a healthy and productive life by using simple meditation and creative visualization techniques to grasp the spiritual nature of our life practical kabbalah draws upon ancient wisdom but offers a modern interpretation and easy to understand techniques for delving deeper into our selves and our world and for reaping the bounteous gifts that were always meant for us from the trade paperback edition
