

MAARTEN TABLE by Víctor Carrasco 2014

Table system is based on a technical minimalist leg solution that does not need a structure and can be attached directly to the table top.

Having no structure and a table top thickness of just 5 mm it acquires great visual lightness. There are endless uses, finishes and formats with this innovative system.

Its “one mile” concept expresses how it can be used for breakfast in the kitchen, then working in the office, for eating in its restaurant version and later on for a meeting around it as a boardroom table and finally for dinner in the evening.

VICTOR CARRASCO

Born in Valencia (Spain) in 1974, Victor Carrasco began his professional career after graduating Cum Laude in Industrial Design Engineering at the Polytechnic University of Valencia.

Shying away from trends and fads, he has developed and positioned international brands with remarkable added value, thanks to his passion for synthesis, sustainable growth and his pragmatic vision of the future.

Since 2007, he has been combining his position as strategic director of Viccarbe with that of Design Director for the prestigious American multinational Coalesse (Steelcase Inc.). Likewise, as an industrial designer, he has collaborated with numerous international companies such as Boffi, Glas Italia, Gandia Blasco, LZF, Vibia and Vaalva, among others.

He was the recipient of the Prince Felipe Award for Business Excellence in 2008.
